Quantitative Momentum: A Practitioners Guide

With the rigor and educational sensibilities author Wesley Gray used to deliver Quantitative Value, the bible on systematic value investing, Quantitative Momentum is a first-of-its-kind guidebook for the individual investor looking to build a stock-picking platform based on momentum. Specifically, the momentum approach identified is ideal for balancing a deep value portfolio and helps to shorten the multi-year relative underperformance of both stand-alone strategies.

## Momentum: A Practitioner's Guide

WHAT IS MOMENTUM? As an investable concept, momentum is straightforward—purchase (avoid) stocks that have performed relatively well (poorly) recently. The period over which returns are evaluated is important for momentum; for example, there is evidence of a one-month reversal effect in stock prices.
