Sapiens Agenda is extremely tuned into the technological landscape of the early-mid 2010s; Simon and his friends are constantly connected on social media networks such as Facebook and Tumblr, while email is treated as a somewhat dated mode of

communication.
Though the novel
never states when
Simon and Bram
created their email
accounts with fake
names, they may have
struggled to do so
given that from
2011-2014, Google
was attempting to
promote its "real
