Find out why the happiest, most successful people have the ability both to persist and to quit. In a culture that perceives quitting as a last resort and urges us to hang in, *Mastering the Art of Quitting* tackles our tendencies to overanalyze, ruminate, and put a positive spin on goals that have outlived their usefulness. Bestselling author Peg Streep and psychotherapist Alan Bernstein demonstrate that persistence alone isn't always the answer. We also need to be able to quit to get the most out of life. They reveal simple truths that apply to goal setting and achievement in all areas of life, including love, relationships, and work: Quitting promotes growth and learning, as well as the ability to frame new goals. Without the ability to give up, most people will end up in a discouraging loop. The most satisfied people know when it's time to stop persisting and start quitting. Quitting is a healthy, adaptive response when a goal can't be reached. Featuring compelling stories of people who successfully quit, along with helpful questionnaires and goal maps to guide you on the right path, *Mastering the Art of Quitting* allows you to evaluate whether your goals are working for or against you, and whether you need to rechart certain aspects of your life. When is it time to stop persisting and start quitting? Take a moment and answer the following questions. Just thinking about the answers will give you insight into your ability to quit artfully and restart your life. Do you believe that "winners never quit and quitters never win"? How realistic are you when it comes to setting goals? What matters more: staying the course or exploring new possibilities in life? How much of your sense of self relies on other people's judgments? Do you tend to hang in longer than you should, even when you're unhappy? When you try something new, do you focus on the effort you have to put in or the possibility of failure? Are you a procrastinator or a delayer when it comes to getting things done? How much do you worry about making a mistake? Do you second-guess yourself? How hard is it for you to get over a setback?

Short of time? Or have you stopped smoking and found it difficult or even impossible to stay stopped? If your answer to these questions is yes, then this is the book for you (even if you've tried and failed using Allen Carr's method in the past). *Quit Smoking Boot Camp* is a revolutionary and concise version of the world-famous Easyway method, delivered in short, punchy segments to help you quit with the minimum of fuss, with minimal effort, in a reassuringly regimented and speedy way. Four days is all it takes to transform your life. We recommend that you read this book over just four days (though you might choose to do it in less or even to take a little longer). Choose your start date and four days later you can be free. It's as simple as that. The Easyway Boot Camp will help you change your mindset and quit smoking, vaping, or using nicotine in any form easily and immediately. What people say about Allen Carr's Easyway method: "The Allen Carr program was nothing short of a miracle." Anjelica Huston "It was such a revelation that instantly I was freed from my addiction." Sir Anthony Hopkins "His skill is in removing the psychological dependence." *The Sunday Times*
