The Mortgage Calculator helps estimate the monthly payment due along with other financial costs associated with mortgages. There are advanced options to include extra payments or annual percentage increases of common mortgage expenses. The calculator is mainly intended for use by the U.S. residents.

*Mortgage - Calculator*

Paying Off a Loan Over Time When a borrower takes out a mortgage, car loan, or personal loan, they usually make monthly payments to the lender; these are some of the most common uses of amortization. A part of the payment covers the interest due on the loan, and the remainder of the payment goes toward reducing the principal amount owed.

*Amortization Calculator*

Estimate your monthly mortgage payments by entering details about the home loan (home price, down payment, interest rate, and the length of the loan), and view homes in your price range.

*Mortgage Calculator – Estimate Monthly Mortgage Payments ...*

Payments are made every two weeks, not just twice a month, which results in an extra mortgage payment each year. There are 26 bi-weekly periods in the year, but making only two payments a month would result in 24 payments.

*Extra Mortgage Payments Calculator - Mortgage Calculator*
