The Psychology of Teen Violence and Victimization [2 ...

The Psychology of Teen Violence and Victimization is a two-volume set that fills a gap in the current literature on teen violence by addressing the incidence, psychological explanations, and impact of all forms of teen violence. The author—a psychologist who has focused upon interpersonal problems centered on violence, harassment, and gender—provides in-depth discussion of the various types of violence committed by and against teens.

The Psychology of Teen Violence and Victimization by ...

A history of aggressive behavior increases a teen ' s risk of behaving violently. Teens with low IQ, cognitive deficits, or learning disorders are more likely to behave violently. Attention deficit and hyperactivity are also risk factors. 1. Mental health issues and emotional distress play a role in violent behavior.
